Fleet Utilization Tool

VTS-VAL-J

A low cost solution to allow businesses to optimize fleet size by providing accurate vehicle utilization data.

A bundled product with an embedded 837 module, inclusive of a pre-paid 24 month software and sim communication package, plus Tele Atlas maps.

Allows for trip start and stop notifications, odometer reading, polling and daily “I-am-alive” transmission.

Includes access to I-Zone and mobile device apps.
